IN THE CLAIMS

Please cancel claims 4 and 14 without prejudice or disclaimer of their subject matter
and amend claims 1, 7, 11, 17, and 21 as follows.

1. (Twice Amended) A method for providing security, the method comprising the steps
of:
detecting when a request for an action is made by a principal; and
in response to detecting the request, determining whether said action is authorized
based on permissions associated with a plurality of routines in a calling
